Media Equipment Instructions
Media & Technology Support Services

1. The system is controlled using the touch screen controller. To turn the system on, touch the screen, and follow the on-screen prompts.

2. On the left-hand side of the screen, you will see a list of available sources. Pressing the button for a source will send the source to the projector and sound system in the room. If the source has any controls, such as Play, Pause, etc. on a Blu-Ray Player, they will be shown on the touch screen.

3. The volume in the room is controlled with the Volume Up and Down buttons on the right-hand side of the screen.

4. If you want to connect your Apple device to the system via AirPlay, select the AppleTV source and follow the instructions on the projection screen for how to connect your device.

5. If you are connecting a laptop to the system with the supplied laptop cables, please make sure that your device's external display is enabled (⊞+P on your keyboard in Windows, Display Properties on Mac)

6. When you are finished using the equipment, please help us conserve energy by turning the system off using the power button in the upper right-hand corner of the touch screen.
